

“HALLOWEENiquette”

Don't

- knock on doors where there is no Halloween decoration. Some people do not want to join the scary fun.
- damage people's houses, front gardens or cars. It is not funny when you must pay for repairs from your pocket-money for the next 100 years ...

Do

- +make every effort to design your costume when you go trick-or-treating. Stylish ghosts get more sweets!
- +make sure that you are safe, in groups and visible for car drivers.
- +have a scary party afterwards. If you share all the sweets you collected, everybody can get their favourite ones.
